TUTORIAL

ListEXPERT – List View

Searching

ListEXPERT™ is a detailed information resource presenting regularly-updated data on over 100,000 chemicals included on hundreds of regulatory and advisory lists from around the world. In this tutorial, we will look at how to use ListEXPERT and its List View presentation of information.

Welcome to the ToxPlanet System

Our products have been designed to provide fast, easy, and intuitive access to a collection containing **millions** of documents covering over **1,000,000** unique substances. This page is intended to give you a quick overview of how our system works.

The ToxPlanet products can be searched using seven different **Search Modes**. Select from the left search panel to switch between **Search Modes**.

[EXPERTIndex™ Search](#)[Full Text Search](#)[MSDSonline® Advanced](#)[TOXLINE® Special Advanced](#)[REACH Registrations Advanced](#)[TSCATS *Complete*™ Advanced](#)[ListEXPERT - List View](#)

To conduct a ListEXPERT - List View search, start by clicking the [ListEXPERT - List View](#) button on the left side of the screen.

ListEXPERT List View

#	List Name
1	ACGIH - Threshold Limit Values (TLVs)
2	AIHA - Emergency Response Planning Guidelines (ERPGs)
3	AIHA - Emergency Response Planning Guidelines (ERPGs) - Under Review
4	AIHA - Workplace Environmental Exposure Levels (WEELs)
5	AIHA - Workplace Environmental Exposure Levels (WEELs) - Considered But Determined to Have an Inadequate Minimum Data Set
6	AIHA - Workplace Environmental Exposure Levels (WEELs) - New WEELs under Development
7	AIHA - Workplace Environmental Exposure Levels (WEELs) - Under Review
8	Alberta - Occupational Exposure Limits (OELs)
9	Argentina - Occupational Exposure Limits (OELs)
10	Arizona DOSH - 13 Carcinogens
11	Arizona DOSH - Exposure Limits for Air Contaminants - Table Z-1
12	Arizona DOSH - Exposure Limits for Air Contaminants - Table Z-2

By clicking the [ListEXPERT - List View](#) button, all lists within the ListEXPERT collection are displayed. This collection is organized alphabetically, and each [List Name](#) reflects its source and focus.

ListEXPERT List View

Select the List Name for which you would like to view additional information.

AIHA - Emergency Response Planning Guidelines (ERPGs)

Chemical	CAS Number	ERPG-1	ERPG-2	ERPG-3	LEL*** [Caution: See Footnote]	Notes
Furfural	98-01-1	2 ppm	10 ppm	50 ppm		Odor should be detectable near ERPG-1.
Benzene	71-43-2	50 ppm	150 ppm	1000 ppm		Odor should be detectable near ERPG-1.
Methylene Chloride	75-09-2	300 ppm	750 ppm	4000 ppm		Odor should be detectable near ERPG-1.
Methyl Mercaptan	74-93-1	0.005 ppm	25 ppm	100 ppm		Odor should be detectable near ERPG-1.
Methyl Chloride	74-87-3	150 ppm	1000 ppm	3000 ppm		Odor should be detectable near ERPG-1.

After selecting a List Name, the corresponding list is displayed in a new window. Lists typically contain a wide variety of useful information in several fields. You can export the list as an .xls file for easy analysis and printing by clicking the Excel icon.
