TUTORIAL

REACH Registrations

Print, Email, Save Results

REACH Registrations is a robust resource providing integrated access to chemical registration information on substances registered with the European Chemicals Agency (ECHA). Under REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), all companies manufacturing or importing chemical substances into the European Union in quantities greater than one ton per year must register those substances with the ECHA. In this tutorial, we will look at how to **Print**, **Email**, and **Save** results from your REACH Registrations search.

Welcome to the ToxPlanet System

Our products have been designed to provide fast, easy, and intuitive access to a collection containing millions of documents covering over 1,000,000 unique substances. This page is intended to give you a quick overview of how our system works.

The ToxPlanet products can be searched using seven different **Search Modes**. Select from the left search panel to switch between **Search Modes**.

ListEXPERT - List View

The EXPERTIndex™ Search (a.k.a. - an EI Search) searches our 6 Million Term Index and is the quickest way to find the information you are seeking. It can be searched

To search the REACH Registrations collection, start by clicking the **REACH Registrations Advanced** button on the left side of the screen. This brings up a search box which allows you to conduct field-specific searching. The **Search Field** box allows you to search by “Name”, “EC Number”, or “CAS Number”. The “Name” option is initially displayed as it is the default search option.
